MAD ABOUT BLUE

WHAT YOU'LL NEED:

- Hi Lift Powder Bleach (Depending on hair length, more than one packet may be needed)
- Hi Lift Peroxide (Please select the appropriate peroxide for your desired lightening result)
- Punky Colour Turquoise
- Punky Colour Pastel Shade Adjustor
- Plastic bowls and brushes
- Timer
- Gloves

HOW TO CREATE MAD ABOUT BLUE

STEP 1 Combine Hi lift powder bleach and selected Hi lift cream peroxide following manufactures instructions.

STEP 2 With your prepped bleach mixture start applying 4cm away from the scalp starting at the nape and concentrating on an even application through mids and ends. Work your way through sections till you have completed application over entire head.

STEP 3 Once you complete the initial bleach application, mix a fresh batch and go back and apply to the root area and the ends. (keep peroxide strength low as going on scalp).

STEP 4 Process until the lightening is at a pale yellow so it appears as light as possible.

Do not leave mixture on longer than manufacturers instructions, to do so will cause damage to your hair.

STEP 5 Rinse with cooler temperature water and thoroughly remove the bleach from the hair and scalp. Gently shampoo with a mild (sulfate-free) shampoo and avoid rubbing the scalp.

STEP 6 Discard any unused bleach mixture.

STEP 7 Using a wide tooth comb, gently comb hair. Blot hair gently with a towel or blowdry at the lowest heat setting. Prepare a bowl and brush.

*Mix the Punky Colour with the Pastel Shade Adjustor: To achieve lightest Pastel Turquoise - add the colour to the Pastel Shade Adjustor a little at a time until you achieve the depth you're looking for.

STEP 8 Put on some gloves and apply the colour to the hair scalp to ends. Allow to process for 15-30 minutes.

STEP 9 Rinse with cool water temperature. Do not shampoo. Condition if necessary.

STEP 10 Dry the hair to reveal the insane Punky colour!
